

Collaborative Opportunities

United Way of Greater
Richmond & Petersburg

We help companies of all types and sizes drive significant social change across our community through volunteerism.

Volunteering is a great team-building activity that strengthens morale and demonstrates your company's commitment to service, all while meeting important needs in the community. We work with more than 50 nonprofits across Metro Richmond to tailor a one-time volunteer project with one of our partners, that fits the unique needs of your group. Recruit and retain the next generation of employees by allowing them to play an active part in your company's social responsibility plan through volunteering.
