What is Income?

Gross Income

- Gross income is all income received in the form of money, goods, property, and services that is not exempt from tax. It includes income from sources outside the U.S. or from the sale of a primary residence, even if part or all of that income can be excluded. Gross income may include part of Social Security benefits received and certain scholarship and fellowship grants.
- Income that is taxable must be reported on a taxpayer's return and is subject to tax.
- Income that is nontaxable may have to be shown on a taxpayer's return but is exempt from tax.

Income

- Earned income is any income received for work, such as wages or business/self-employment income
- Unearned income is any income not earned from work, such as unemployment income or income produced by investments, such as interest on savings, dividends on stocks, or rental income.
- Unless there is an exception in the tax law, all income is taxable.

What is considered taxable income?

This chart is from IRS Publication 4012, page D-3, Volunteer Resource Guide.

This list is a quick reference and volunteers should refer to Publication 525, Taxable and Nontaxable Income, for more information. Don't rely on this list alone. Some of the income items on this chart are Out of Scope. Review the Scope of Service chart to identify Out of Scope items. Refer taxpayers with Out of Scope income to a professional tax preparer. Confirm that all income received by the taxpayer has been discussed and shown on the return, if required. To determine taxability at the state level, check with your state's department of revenue.

New Income Topics 2025

- The One Big Beautiful Bill added two new impacts to income,
 - No Tax on Tips
 - No Tax on Overtime
- The following three slides cover the basics of these new topics
- For a detailed discussion of these new updates see Module 10, What's New for 2025.
 - Brad Martin has also developed a Supplemental Lesson on New Tax Law Provisions for 2025 with detailed examples and additional guidance. https://is.gd/vitaob3

No Tax on Tips

NEW for tax years 2025 - 2028, taxpayers may be able to deduct up to \$25,000 in qualified tips from their income for federal tax purposes.

ELIGIBILITY:

- Tip earners must have a valid Social Security Number. In the case of a joint return, the tip earner must have a valid SSN to claim the deduction.
- Filing status cannot be Married Filing Separately.
- Tips must be received for work in occupations listed by the IRS as regularly and customarily receiving tips on or before December 31, 2024.
- Tips must be reported on a W-2, 1099-NEC, 1099-K, 1099-MISC, or other specified statement furnished to the individual, or reported by the taxpayer on Form 4137.

AMOUNT:

• The maximum allowed deduction is \$25,000 for the year, and in the case of joint filers, this is per return, not per person.

PHASE OUT:

• The deduction begins to phase out for individuals with a MAGI over \$150,000, and joint filers with a MAGI above \$300,000.

No Tax on Tips

QUALIFIED TIPS:

- Includes: Cash, card-based tips, and tips received under a tip sharing arrangement.
- This could also include something that can immediately be exchanged for a fixed value, such as casino chips.
- Does not include items such as event tickets or other goods that cannot immediately be exchanged for a specific cash amount, including most digital assets.
- Must be voluntary, not subject to negotiation, and determined solely by the customer. So for
 instance, automatic service charges such as those placed on a restaurant bill for a large party are
 not considered qualified tips because they were not set by the customer and are required to be
 paid.

No Tax on Tips (con't)

- Tips received in a specified service trade or business (SSTB) are not eligible for the deduction.
 - SSTB definition: "any trade or business involving the performance of services in the fields of health, law, engineering, architecture, accounting, actuarial science, performing arts, consulting, athletics, financial services, brokerage services, or any trade or business where the principal asset of such trade or business is the reputation or skill of 1 or more of its employees."

NOTES:

- Taxpayers will generally need something from their employer or payer to claim the deduction.
- In TY2025, Forms W-2, 1099-MISC, 1099-NEC, and 1099-K will not be updated to include a separate accounting of qualified tips for 2025.
- Rules are slightly different for employees versus self-employed individuals (non-employees).
- These tips would still be counted when calculating self-employment taxes for self-employed individuals, as well as Social Security and Medicare taxes for employees.

No Tax on Overtime

NEW deduction for tax years 2025 through 2028: Individuals who receive "qualified overtime compensation" may deduct the pay that exceeds their regular rate of pay that is required by the Fair Labor Standards Act and reported on a W-2, 1099, or other specified statement furnished to the individual.

ELIGIBILITY:

- The taxpayer's filing status cannot be Married Filing Separately.
- Taxpayers must include a Social Security Number on the return that is valid for employment as of the time the tax return is filed.

AMOUNT:

• The maximum deduction is \$12,500 (\$25,000 for joint filers).

AVAILABILITY:

• This deduction is available to taxpayers who itemize or who take the standard deduction.

No Tax on Overtime (con't)

PHASE OUT:

• The deduction phases out for taxpayers with MAGI above \$150,000 (\$300,000 for joint filers) at a rate of \$100 per \$1,000 above the threshold amount.

NOTE:

- **For tax year 2025 only**, the IRS has announced they will not penalize employers for not providing that information or filing information returns with the IRS containing those figures, but is encouraging them to provide that information in some format so that taxpayers can claim the deduction.
- Taxpayers will need **something** from their employer to demonstrate their overtime payments.

Other Line 1 Items

- **Household Employee (line 1b):** baby-sitting, housekeeping, etc. any wages of this type not reported on Form W-2
- **Tip Income Not Reported (line 1c):** see previous slide for more information
- **Medicaid Waiver (line 1d):** Certain Medicaid waiver payments a taxpayer received for providing care for an eligible individual living in the taxpayer's home are not taxable and are excluded from gross income. Payments not reported on a W-2 that the taxpayer chooses to include in earned income are entered on line 1d. *Note: The same amount is entered on Schedule 1, line 8s, which is a negative amount, thereby subtracting it in the calculation of total income.*
 - **NOTE:** New for 2025, Medicaid waiver payments are eligible to be treated as non-taxable income and are included on the W2 box 12 with code II

Other Line 1 Items (con't)

- **Taxable Dependent Care Benefits (line 1e):** The portion of dependent care benefits paid by the employer that exceeded actual qualified expenses paid. The employer portion used to pay childcare can not be used in the childcare credit calculation. The total benefit provided is reported on Form W-2 in box 10.
- **Employer Provided Adoption Benefits (line 1f):** Taxable income adjustment for benefits paid by employer. The taxpayer may be able to exclude up to \$16,810 from your income and be able to claim a credit of up to \$16,810.
 - Note: The taxpayer can't claim both a credit and exclusion for the same expenses. The total benefit provided is reported on form W2 in box 12 with code T.
- Wages from Form 8919 (line 1g): Wages received as an employee that the employer did not withhold your share of Social Security and Medicare taxes.

Other Line 1 Items (con't)

- Other Earned Income (line 1h): Retirement income improperly deferred, and disability retirement income received before reaching the employer's full retirement age (amount reported on Form 1099-R with code 3 in box 7), and corrective distributions from a retirement plan shown on Form 1099-R.
- **Nontaxable Combat Pay (line 1i):** Qualified combat pay can be excluded from taxable income and still be used in the earned income tax credit calculation.

- Social Security benefits are reported on Form 1040, Line 6a
- Be sure to also enter any income tax withheld from Form SSA-1099, Box 6, and any Medicare withheld premiums shown in the Description box.
- Add any information on Medicare for the <u>Schedule A</u>.
- A portion of the benefits is taxable if total income (including tax-exempt interest), plus one-half of the benefits received, is more than certain base income amounts, which vary upon the taxpayer's filing status.
 - The taxable portion of Social Security benefits is **never more than 85%** of the net benefits the taxpayer received.

Social Security Benefits - What's Taxable?

- The calculation is rather complex and is different depending on the filing status. To see how it works, go to the worksheet on page 32 of the <u>1040 instructions</u>.
- Fortunately, the tax software will calculate the taxable amounts for you.
- Taxable Social Security benefits will appear on Form 1040, Line 6b

Lump Sum Payments

- If Box 3 of SSA-1099 shows broken down amounts for prior years, the taxpayer received a lump-sum benefit payment
- There are two ways to figure out taxable portion of Social Security benefits when lump-sum payments are involved:
 - **First option:** report the whole payment in the year it was received. Complete the Social Security Benefits Worksheet as usual by including the entire lump-sum payment as normal
 - **Second option:** treat the payment as received in the earlier year(s) by figuring whether any part of these benefits is taxable based on the earlier year's income. Will need the tax return for the year(s) the lump sum payment is received for.
 - Use the method that results in the lower taxable benefits.

Capital Loss Carryovers

- If there are capital losses more than gains, the amount of loss that can be claimed on line 21 of Schedule D is the lesser of \$3,000 (\$1,500 if Married Filing Separately)
 - If your loss is more than this limit, then you can carry forward to later years use the worksheet in <u>Publication 550</u> for more information!
 - Check with the taxpayer if they have carryovers from last year if they are not sure, you will need last year's tax return. Carryovers **must be reported** every year, or they are lost.

(Schedule 1 - Line 1)

Taxable refunds, credits, or offsets of state and local income taxes

- When a taxpayer received a state income tax refund and took state income tax as an itemized deduction in the prior year, the preparer needs a copy of the prior year return to determine how much is taxable.
- If the taxpayer did not itemize deductions on the prior year return, or did not receive a state income tax refund, there is no need to report any of the state income tax refund as income on the federal return.
- Generally taxpayers receive <u>Form 1099-G</u> that reports their state and local tax refund

Taxable Refunds

- In some cases, state income tax refunds are taxable income on the federal return.
- The refund becomes taxable if it produced a tax benefit in the previous year. The software will guide you through this process.
- When considering state tax refunds when a taxpayer itemized their deductions, the difference between the itemized deductions and the standard deduction must be considered to determine the benefit and therefore the portion of the refund that is taxable.

By the end of this section you will...

- Understand what Other Income is
- Understand Form 1099-MISC, 1099-NEC, 1099-K
- Understand where to report Other Income
- Understand how Other Income affects the tax return

Other Income

What is considered Other Income?

- While most people are aware they must include wages, salaries, interest, dividends, tips and commissions as income on their tax returns, many don't realize that they must also report most other income, such as:
 - cash earned from side jobs,
 - barter exchanges of goods or services,
 - o awards, prizes, contest winnings and
 - gambling proceeds.
- A Form 1099-MISC will be issued if the taxpayer has \$600 or more from the pay. This 1099-MISC will also be sent to the IRS.
 - Income not reported on 1099-MISC because it is less than \$600 still needs to be reported on the tax return, even though there is no form for it.
- Some examples include:
 - Prizes and awards
 - Hobby income
 - Rental income
